

EMT Expense (ExpenseDesk)

Overview

The EMTDesk Expense Management Module is designed to provide a unified policy-driven platform for employees to create, submit, track and get reimbursed for Travel and Non-Travel expenses while ensuring policy compliance, approval controls and financial accuracy. The module supports maker-checker workflows, multi-level approvals, GST handling, and detailed analytics.

Key Features

- **Dashboard:** The Dashboard acts as a quick overview of all expense-related activities. It gives users a snapshot of where things stand without needing to go into each section.
- **Trips:** Allow users to link travel-related expenses to a specific journey, making it easier to organize, track, and report expenses accurately.
- **Expense Inbox:** Expense Inbox is the starting point of the entire expense flow. It allows users to quickly capture and store expenses as and when they occur without worrying about submitting them immediately.
- **Expense Reports:** Reports are where users compile their expenses and submit them for approval. Instead of submitting each expense individually
- **Advances:** The Advances feature allows users to request money in advance before they actually incur expenses, especially in cases of "Travel" & "Non-Travel".
- **Expense Policy:** The Expense Policy defines the rules and guidelines that control how expenses are created, submitted, and reimbursed within the system.
- **Approval Flow:** The Approval Flow defines how expense reports move through different stages before final reimbursement.
- **My Approvals:** My Approvals is designed for managers who are responsible for reviewing and approving expense reports.
- **Finance Approvals:** Finance Queue is used by the finance team to process reports after manager approval. It covers the entire flow from verification to final reimbursement.
- **Configurations Panel:** Configuration of Expense Categories, Finance Codes, etc.
- **Reports/Analytics:** Analytics provides visibility into how expenses are being incurred across the organization.

Expense Flow Overview:

Create → Submitted → Manager Approved → Finance Approved → Reimbursed

Sent Back / Rejected

Dashboard:

The Dashboard is designed to give users a quick and clear view of their expense activities along with the overall status of reports in the system.

1. **Expense Cards:** Show Separate clickable cards for the below highlights for Employees (Self, Admin - Self & Company) & (Finance Admin, Finance User - Self & Companies):
 - a. At the top of the dashboard, users see a set of summary (count) cards that represent the current status of expense reports.
 - b. These cards are clickable and take users directly to the relevant filtered list, reducing the need for manual navigation.
 - c. Display Count considering all status except 'Delete'
 - i. Total Expense Reports
 - ii. Draft Expense Reports
 - iii. "Send Back" Expense Reports
 - iv. Expense Reports - Pending Manager Approval
 - v. Expense Reports - Pending Finance Approval
 - vi. Reimbursement Pending / Completed
2. **Flow Charts:** Display over all expenses of Self/Company/Sub-Companies: -
 - a. Daily/Monthly/Yearly Expenses occurred to the Company
 - i. **Expense Type Summary**
 1. Travel
 2. Non-Travel (General)
 3. Recurring (Monthly)
 4. Count & Finance Approved total Amount (Including Reimbursed Amount)
 5. Show Finance Approved & Reimbursed amount separately in a tool tip.
 - ii. **Policy Violation Expense Report Summary**
 1. Count & Finance Approved total Amount (Including Reimbursed Amount).

2. Show Finance Approved & Reimbursed amount separately in a tool tip.
- iii. **Category wise Expenses Report Summary**
 1. Category & Finance Approved Amount (Including Reimbursed Amount).
 2. Show Finance Approved & Reimbursed amount separately in a tool tip.
- iv. **Department Wise Expense Report Summary – Custom**
 1. Name & Finance Approved Amount (Including Reimbursed Amount).
 2. Show Finance Approved & Reimbursed amount separately in a tool tip.
- v. **Designation Wise Expense Report Summary – Custom**
 1. Name & Finance Approved Amount (Including Reimbursed Amount).
 2. Show Finance Approved & Reimbursed amount separately in a tool tip.
- vi. **Project wise Expenses Report Summary – Custom**
 1. Project Name & Code & Finance Approved Amount (Including Reimbursed Amount).
 2. Show Finance Approved & Reimbursed amount separately in a tool tip.
- vii. **Cost Centre wise Expenses Report Summary – Custom**
 1. Cost Centre Name & Code & Finance Approved Amount (Including Reimbursed Amount).
 2. Show Finance Approved & Reimbursed amount separately in a tool tip.

Trips

Trips are used to group and manage all travel-related expenses under a single journey, ensuring better organization, visibility, and accurate reporting.

Workflow:

1. Under Trips Section:
 - a. User will be able to see all the Trips he/she has booked on EMTDesk (Online/Offline).
2. While creating Travel Expense Report
 - a. User must select the past dated Trip if it is **mandatory**.
 - i. Show only “Booked” & “Completed” trips.

- b. Once the trip is selected, then fetch the trip details to show it under report as **“Company Paid”** by default.
 - i. Trip ID
 - ii. Booking ID
 - iii. Product Name
 - iv. Amount
 - v. Payment Mode – Company Paid
 3. If no trip is available, then allow to create an offline trip
 - a. Trip Name
 - b. Trip Start Date
 - i. Allow to select past dates only in the calendar.
 - c. Trip End Date
 - i. Allow to select past dates only in the calendar.
 - d. Purpose of Travel

Expense Inbox

Expense Inbox is the entry point of the expense journey where users can quickly capture and store expenses without needing to complete full details or submit immediately. It acts as a temporary holding area until expenses are organized into reports.

Key Capabilities

- Multi-channel expense capture:
 - WhatsApp
 - Mobile App
 - Web Portal
 - OCR-based automatic data extraction
 - Multi-receipt upload with auto-splitting
- 1. Expense Capture Workflow Via WhatsApp / App / Web:**
 - User uploads one or multiple receipts
 - System:
 - Splits multiple receipts
 - Runs OCR on each receipt
 - Creates individual expense entries
 - 2. Auto-captured fields:**
 - Expense Category
 - Expense Date

- Merchant Name
 - Amount with currency
 - In case the OCR captures international currency, then always converts the amount into INR and shows the selected currency value & in INR value as well.
 - Split Expense Amount
 - In case user clicks on “Split Expense” Amount than
 - Allow user to select employee of the associated company only
 - Once the user is selected than allow to divide the expense amount with percentage or flat
 - i Symbol (Tool Tip):
 - The total amount will be reimbursed to you. Split is for allocation and reporting purposes only.
 - Auto mark the “Expense Type” as
 - Travel Expense
 - Non-Travel (General) Expense
 - Recurring (Monthly) Expense
 - Description
3. **Expenses View Option:**
- a. User will be able to view all the expenses in the “**Expense Inbox**” which are added by the user either manually or through OCR.
 - b. Show “Unreported”, “Reported” & “Submitted” Expenses in a separate tab.
 - i. Expense ID
 - ii. Expense Category Name
 - iii. Report ID (If attached & submitted)
 - iv. Amount
 - v. Merchant
 - vi. Expense Type
 1.  Travel Expense
 2.  Non-Travel (General) Expense
 3.  Recurring (Monthly) Expense
 - vii. Policy Violated with tool tip
 1. Yes
 2. No
2. All captured expenses are saved in “**Unreported**” tab
- a. User can:
 - i. Edit details
 - ii. Add missing fields
 - iii. Delete expense

3. System will flag the Missing fields, Policy violations with status
 - a. Ready (All details complete)
 - b. Action Required (Incomplete / Policy Violated)
 - i. Allow to edit and update the expense until it is not attached to the report.
4. Expenses which are attached to report but in 'Draft' status will be shown as "Reported" under the reported tab.
 - a. Should not be allowed to attach again while creating a new report.
 - i. In case any expense is removed from the existing 'Draft' report, then mark the expense as "Unreported" and allow to attach it to the new report.
5. Expenses which are attached to report & submitted will be shown as "Submitted" under the Submitted tab.
 - a. Should not be allowed to attach again while creating a new report.

Expense Reports

Reports are used to group expenses and submit them for approval. Instead of submitting individual expenses. Users create reports based on expense types such as travel, general, or monthly expenses.

Workflow:

1. Allow users to add new reports by clicking on **" +New Report"**.
 - a. Report Type
 - i. Travel Report
 - ii. Non-Travel (General) Report
 - iii. Recurring (Monthly) Report
 - b. Report Name
 - c. Location – Jio Location
 - i. Country
 - ii. State
 - iii. City
 - d. Duration
 - i. From Date
 - ii. To Date
 - e. Trip
 - i. Allow to select past dated trips (Completed) in case report type is selected "Travel Report". Otherwise, the option will not appear.
 1. Mandatory or optional will be managed from configuration.
 - ii. Show all the services booked in a trip as "Company Paid" & display it.

- f. Custom Fields if enabled from the master's (Project Code, Department Code, Cost Centre Code etc.)
2. Once the report is created then:
 - a. Allow users to attach expenses which are unreported under Expense Inbox.
 - i. Show the expenses based on the selected report type.
3. Allow users to add new expenses manually by clicking on "+Add New Expense". In case, the user enters the expense details manually then show the expense category list based on the selected "Report Type"
 - a.
 - i. Once the user clicks on "+Add New Expense" then
 1. Upload receipt (OCR reads details) and fill in the below fields automatically.
 - a. Expense Category
 - b. Expense Date
 - i. Start Date & End Date if enabled from the settings.
 - c. Location – Jio Location (Country, State & City) if enabled from the settings
 - d. Amount with currency
 - i. In case the OCR captures international currency, then always converts the amount into INR and shows the selected currency value & in INR value as well.
 - e. Split Expense Amount
 - i. In case user clicks on "Split Expense" Amount than
 1. Allow user to select employee of the associated company only
 - ii. Once the user is selected than allow to divide the expense amount with percentage or flat
 - iii. i Symbol (Tool Tip):
 1. The total amount will be reimbursed to you. Split is for allocation and reporting purposes only.
 - f. Merchant Name
 - g. Description – Free flow remarks
 - h. Add Expense
4. Duplicate Check:

- a. If a user is adding a duplicate expense again in the same Expense Report, then give an alert that “A similar expense has already been added in the report.”
 - i. Same Amount + Date + Merchant
 - ii. Same Invoice Number
 - iii. Same Receipt Image
 - b. If a user is adding a duplicate expense to the new expense report which is already submitted, then give an alert that “A similar expense has already been submitted in another expense report (Report ID).”
 - i. Same Amount + Date + Merchant
 - ii. Same Invoice Number
 - iii. Same Receipt Image
- 5. Advance Amount
 - a. Show the advance amount which needs to be adjusted, which is associated with the selected trip.
- 6. Reimbursable
 - a. Show the total amount which are employee paid & needs to be reimbursed after adjusting the advance.
 - b. In case the advance is not there then show the total expenses amount which are employee paid.
- 7. Once the user clicks on final “Submit” then
 - a. Give a pop-up for a consent that all expenses are reviewed and attached correctly.
 - i. Yes – Submit the Report for approval
 - ii. No – Keep it on the same page.
- 8. Give an option to save Reports as “Draft” with headings like “Save & Submit Later”.

Expenses Reports View Option:

- b. Users will be able to view all the expense reports in the “Expense Reports” section which are added by the user.
 - i. Expense Report ID
 - ii. Expense Report Name
 - iii. Total Reimbursable Amount
 - iv. Trip ID (If attached)
 - v. Report Type
 - 1. ● Travel Report
 - 2. ● Non-Travel (General) Report
 - 3. ● Recurring (Monthly) Report
 - vi. Policy Violated with tool tip
 - 1. Yes

2. No
- vii. Allow to filter reports based on the report type given below.
 1. All Reports
 2. Travel Reports
 3. Non-Travel (General) Reports
 4. Recurring (Monthly) Reports
- viii. Allow to filter the reports based on the status given below
 1. Draft Reports
 2. Sent Back Reports
 3. Awaiting Manager Approval
 4. Awaiting Finance Approval
 5. Reimbursement Pending
 6. Reimbursed
 7. Rejected
- ix. Allow to edit and update the draft reports and expenses until it is submitted.
- x. Allow to “Withdraw” the submitted report requests until it is not approved by the first approver.
- c. Allow user to open any report to view all the expenses added in the expense report
- d. Display the Report Details added like
 - i. Report Name
 - ii. Report Type
 - iii. Duration
- e. Show all the expenses added in the report,
 - i. Expense ID
 - ii. Expense Category
 - iii. Amount
 - iv. Policy Violated with tool tip
 1. Yes
 2. No
- f. Allow user to click on each “Expense” to view the filled details
 - i. Uploaded Receipt
 - ii. Expense Category
 - iii. Expense Date
 - iv. Location (Country, State & City)
 - v. Amount with currency
 1. In case the OCR captures international currency, then always converts the amount into INR and shows the selected currency value & in INR value as well.
 - vi. Merchant Name
 - vii. Description – Free flow remarks

Advances (Advance Request)

The Advances feature allows employees to request funds in advance before incurring expenses. This is especially useful for travel or planned business expenses where out-of-pocket spending needs to be minimized. The module ensures controlled disbursement, proper tracking, and seamless adjustment against submitted expense reports.

1. Advance Request:

- a. Travel Advance Report:
 - i. Description: Request advances related to your business trip.
- b. Non - Travel Advance Report:
 - i. Description: Request advance for general expenses.

2. Travel Advance Report: **Select Trip**

- a. Give an option to enter Advance Report Name
- b. Advance Request Date
 - i. Prefill today's date always
 - 1. Readable
- c. Allow the user to select a **trip** for which he wants to raise an advance request.
 - i. Make it mandatory/optional based on the configuration.
 - ii. Show only "Booked" trips.
 - iii. Show only future trips not past dated trips.
- d. Estimated Expenses
 - 1. Option to select currency
 - 2. In case the user selects international currency, then always converts the amount into INR and shows the selected currency value & in INR value as well.
- e. Advance Amount:
 - i. Option to select currency
 - ii. In case the user selects international currency, then always converts the amount into INR and shows the selected currency value & in INR value as well.
- f. Remarks:
 - i. Free text to write remarks
- g. Total Amount
 - i. Show amount with currency symbol

3. Non - Travel Advance Report: **Trip is not required.**

- a. Give an option to enter Advance Report Name
- b. Advance Request Date
 - i. Prefill today's date always
 - 1. Readable
- c. Location:

- i. City - State - Country
- d. Estimated Expenses
 - 1. Option to select currency
 - 2. In case the user selects international currency, then always converts the amount into INR and shows the selected currency value & in INR value as well.
- e. Advance Amount:
 - i. Option to select currency
 - ii. In case the user selects international currency, then always converts the amount into INR and shows the selected currency value & in INR value as well.
- f. Remarks:
 - i. Free text to write remarks
- g. Total Amount
 - i. Show amount with currency symbol

Advance Request View Option:

1. Users will be able to view all the advance reports in the “Expense Reports” section which are added by the user.
 - a. Advance Report ID
 - b. Advance Report Name
 - c. Estimated Expenses
 - d. Advance Amount
 - e. Trip ID (If Available)
 - f. Status

Advance Surrender Request Workflow:

The Advance Surrender Request feature enables employees to return any unutilized advance amount received for travel or business expenses. Once an expense report is submitted, the system automatically calculates the difference between the advance taken and the actual expenses incurred. If the advance exceeds the eligible expenses, the excess amount is identified as the surrender amount.

1. Advance Report ID
2. Advance Report Name
3. Expense Report ID
4. Requested Advance Amount
5. Settled Advance Amount
6. Utilized Advance Amount

7. Trip ID (If Available)
8. Status
9. Surrender
 - a. Once the user clicks on “Surrender’ then
 - i. Display the Utilized Advance Amount
 - ii. Surrender Mode
 1. UPI
 2. Bank transfer
 3. Cash
 - iii. Attach Proof
 - iv. Allow to enter bank UTR Number
 - v. Remarks
10. Once the user clicks on “Submit”, then submit the request to finance directly for approval & settlement.
11. Finance should also have an option to surrender the Utilized Advance Amount of all employees.
 - a. In case the user is not doing it then finance should have an option to do it by themselves.

Cards Workflow:

The Company Card (Corporate Credit Card) module enables organizations to manage expenses made through company-issued credit cards. It ensures that all card transactions are automatically captured, matched with receipts, validated against policies, and processed through the standard approval and reconciliation flow.

- a. Allow to select multiple card expenses
 - i. Display Transaction ID
 - ii. Transaction Date
 - iii. Card Number - Last 4 Digits
 - iv. Merchant
 - v. Auto tag Expense Category based on the expense type
 - vi. Amount with the currency symbol
 - vii. Payment Method
 1. Corporate Paid (By Default)
 - viii. Remarks

- b. After selecting one or multiple expenses from the card list, please create the expenses automatically and attach it to the respective expense report.
- c. Total Amount
 - i. Show amount with currency symbol

Mileage Workflow:

Mileage Expense:

- a. Allow to raise Mileage Request while creating an expense report
- b. Travel Category
 - i. Local
 - ii. Outstation
 - 1. In case of an outstation please ask for a Departure Date & Return Date with time.
- c. Vehicle Type
 - i. Car
 - ii. Bike/Scooty
- d. From Location
 - i. (GPS / Geo-fencing)
- e. To Location
 - i. (GPS / Geo-fencing)
- f. Distance (KM) or Mile
 - i. Calculated automatically based on distance
- g. Rate per KM or Mile
 - i. Fetch from the policy
 - ii. Show amount with currency symbol
- h. Payment Method
 - i. Employee Paid (By Default)
- i. Total Amount
 - i. Show amount with currency symbol
 - ii. Calculated automatically based on Distance

Per Diem Workflow:

Per Diem Expense:

- 1. Once the user creates the travel expense report then
 - a. Calculate the per diem configured at policy level based on the report start date & end date and add it to the report day wise.
 - b. Do not allow user to add below expense categories if per diem is enabled,

- i. Meals (Breakfast/Lunch/Dinner)
- ii. Incidental Expenses
- iii. Local Transport (Metro / Auto / Bus)

My Approvals Workflow:

My Approvals:

- a. Show all the expense reports pending for approval & Approved Requests.
- b. Option to approve the full expense report request
- c. Option to partially approve the expenses in the expense report request with remarks.
- d. Option to “Send Back” the expense report with remarks to an employee.

Send Back Feature:

- 1. If an approver clicks on “Send Back” then given an option to enter remarks.
- 2. Once click on submit, then send it back to the user.
 - a. Allow user to modify the request like, addin another expense category, modifying the existing expense (Category, Amount, Date, Receipt etc)
- 3. Allow user to resubmit back to the approver.

Finance Approvals Workflow:

A. Finance Approvals:

- a. Show all the expense reports Pending & Approved for finance approvals
- b. Option to approve the full expense report request
- c. Option to partially approve the expenses in the expense report request with remarks.
- d. Option to “Send Back” the expense report with remarks to an employee.

B. Reimbursement:

- a. Show all the expense reports pending reimbursements & Reimbursed.
- b. Option to view & modify the amount, expense category, GL Code, Tax Code, HSN Code, Cost Centre Code, Project Code, Merchant Code while doing the Reimbursement with remarks.

C. Reimbursement View Option:

- a. Payment Initiator users will be able to view all the Expense & advance reports in separate tabs.
 - i. **Expense Reports**
 - 1. Expense Report ID
 - 2. Expense Report Name
 - 3. Total Reimbursable Amount

4. Trip ID (If attached)
5. Report Type
 - a. ● Travel Report
 - b. ● Non-Travel (General) Report
 - c. ● Recurring (Monthly) Report
6. Policy Violated with tool tip
 - a. Yes
 - b. No
7. Allow to filter reports based on the report type given below.
 - a. All Reports
 - b. Travel Reports
 - c. Non-Travel (General) Reports
 - d. Recurring (Monthly) Reports
8. Allow to filter the reports based on the status given below
 - a. Sent Back Reports
 - b. Reimbursement Pending
 - c. Reimbursed
 - d. Rejected

ii. Advance Reports

1. Advance Report ID
 2. Advance Report Name
 3. Estimated Expenses
 4. Advance Amount
 5. Trip ID (If Available)
 6. Status
 7. Surrender
- D. Allow to upload Reimburse status manually if the ERP is not integrated or no payment response received from ERP.
- a. Give an option to download all the reports in excel which are finance approved but payment is not yet updated.
 - b. Allow to mark each transaction as “Reimbursed” in excel.
 - c. Allow to enter the bank UTR reference number.
 - d. Once it is uploaded, then change the status from “Finance Approved – Payment Initiated” to “Reimbursed”.

Send Back Feature for Finance:

4. If an approver clicks on “Send Back” then given an option to enter remarks.
5. Once click on submit, then send it back to the user.

- a. Allow user to modify the request like, adding another expense category, modifying the existing expense (Category, Amount, Date, Receipt etc.)
6. Allow users to resubmit back to the original approver or to the finance directly based on the settings enabled.

Expense Inbox History

1. We need to capture each step/action in history.
2. When user is adding an expense through mobile, WhatsApp, Web then,
 - a. Capture the Mode of adding an expense along with Name, Date, and Time of adding the expense.

Expense Report History

1. We need to capture each step/action in history.
2. When user is raising a claim & adding all the expenses and submitting the claim then,
 - a. Capture the Name, Date, and Time of submitting the request.
3. When an approver (Manager or Finance) is Approving/Rejecting the request then
 - a. Capture the Name, Date, and Time with action/status.
4. When an approver (Manager or Finance) is sending request back to the user then
 - a. Capture the Name, Date, and Time with action/status.
5. When Payment Initiator is submitting the request for Reimbursement then
 - a. Capture the Name, Date, and Time with action/status.
6. Once the amount is reimbursed through manual upload or via ERP system then
 - a. Capture the Date & time with action/status.

Finance Team Management

1. Allow to select finance team members
 - a. Show only those users who have “Finance User” role in the profile
2. Allow to tag finance user as
 - a. Checker
 - i. Who will approve the requests
 - b. Payment Initiator

- i. Who will do the final submission for reimbursement
 - c. Both
 - i. Who will have both the access
- 3. Assign Base Location
 - a. Allow to select “All” or multiple base locations
 - b. Finance user will get the request only of the selected locations

Policy Mechanism

Expense Policy:

1. Option to Create Expense policy at hierarchy level
2. Allow to select expense category
 - a. Show all the expense categories
3. Allow to select location
 - a. Country
 - b. State
 - c. City
4. Allow to enter Expense Amount Limit
 - a. Allow to enter different expense amount limit for different locations
5. Allow to enter Receipt Required Expense Amount Limit
 - a. Allow to enter different receipt required expense amount limit for different locations
6. Allow to select Expense Count & Period Limit
 - a. Expense Count
 - i. Free text to enter count
 1. Numeric value only
 - b. Period
 - i. Daily
 - ii. Weekly
 - iii. Monthly
 - iv. Yearly
7. Action
 - a. Warn
 - i. In this case, users will get a warning of policy violation; however, users can still submit the policy violated expense.
 - b. Block

- i. In this case, users will not be able to submit the policy for violated expenses.
 - ii. The error will be displayed properly.
- 8. Allow to select Claim Count & Period Limit
 - a. Claim Count
 - i. Free text to enter count
 - 1. Numeric value only
 - b. Period
 - i. Daily
 - ii. Weekly
 - iii. Monthly
 - iv. Yearly

Mileage Policy:

- 1. Allow to select Vehicle Type
 - a. Car
 - b. Bike/Scooty
- 2. Allow to select location – Jio Location
 - a. Country
 - b. State
 - c. City
- 3. Allow to enter Mileage Rate Per KM/Mile
- 4. Maximum Distance Limit in KM/Mile
- 5. Action
 - a. Warn
 - i. In this case, users will get a warning of policy violation; however, users can still submit the policy violated expense.
 - b. Block
 - i. In this case, users will not be able to submit the policy for violated expenses.
 - ii. The error will be displayed properly.

Per Diem Rate Policy:

- 1. Allow to select “Travel Type”
 - a. Domestic
 - b. International
- 2. Allow to select Location

- a. Country
 - b. State
 - c. City
3. Allow to select Per Diem Type
 - a. Per Day
 - b. Per Hour
4. Allow to enter Rate in the selected country currency.

Approval Policy Mechanism

1. Need to define Category based approval flow or one approval flow for all categories
 - a. Allow to assign “Regular” approvers
 - i. Show the approver list same which we have given in Travel
 - b. Allow to assign “Deviation” approvers
 - i. Show the approver list same which we have given in Travel
2. Need to define Category based Finance Approval flow
 - a. Display the list of finance users list

General Masters Configuration:

Duplicate Check Configuration:

1. Enable/Disable
2. Action
 - a. Warn
 - i. In this case, users will get a warning of policy violation; however, users can still submit the policy violated expense.
 - b. Block
 - i. In this case, users will not be able to submit the policy for violated expenses.
 - ii. The error will be displayed properly.

Report Type Masters configuration:

1. Travel Report
 - a. Enable/Disable
 - b. Trip ID Mandatory or Optional
2. Non-Travel (General) Report
 - a. Enable/Disable

3. Recurring (Monthly) Report
 - a. Enable/Disable
4. Custom Fields
 - a. Project Code, Department, Designation, Cost Centre, etc.
 - b. Enable/Disable
 - c. Mandatory or Optional

Expense Category Masters configuration:

1. Show the default Expense Category List with enable/disable option. Also give an option to rename if required.
 - a. Travel Expense
 - i. Flight
 - ii. Train
 - iii. Cab
 - iv. Local Transport (Metro / Auto / Bus)
 - v. Hotel
 - vi. Meals (Breakfast/Lunch/Dinner)
 - vii. Travel Insurance
 - viii. Visa Fees
 - ix. Baggage Charges
 - x. Airport Transfer
 - xi. Incidentals Expenses
 - b. Non-Travel Expense
 - i. Office Supplies
 - ii. Printing & Stationery
 - iii. Internet / Wi-Fi
 - iv. Telephone / Mobile Bills
 - v. Courier / Shipping
 - vi. Client Entertainment
 - vii. Team Expense / Team Outing
 - viii. Gifts & Rewards
 - ix. Training & Certification
 - x. Conference / Event Fees
 - xi. Consultancy / Professional Fees
 - xii. Fuel / Petrol
 - xiii. Parking Charges
 - xiv. Toll Charges
 - xv. Miscellaneous
 - c. Recurring (Monthly) Expense

- i. Electricity Bill
 - ii. Water Charges
 - iii. Internet Subscription
 - iv. Mobile Plan
 - v. Software Subscriptions
 - vi. Maintenance / Housekeeping
- 2. Allow to add the new expense category
 - a. Expense Category Name
 - b. Expense Category Code
 - c. Expense Category Type
 - i. Travel Expense
 - ii. Non-Travel Expense
 - iii. Recurring (Monthly) Expense
 - 1. In case expense is defined as monthly expense then
 - a. Allow to define month start date & end date
 - b. By default, applicable for 30 days
 - c. Do not allow users to add an expense for less than 30 days.
- 3. Activation Date
 - a. Allow to enter the activation date while creating an expense
- 4. Fields:
 - a. Expense Date
 - i. Start Date & End Date Required
 - ii. Mandatory or Optional
 - b. Location: Jio Location
 - i. Mandatory or Optional
 - ii. Yes or No
 - iii. Mandatory or Optional
 - c. Invoice Number Required
 - i. Yes or No
 - ii. Mandatory or Optional
 - d. Remarks
 - i. Mandatory or Optional

Mileage Masters configuration:

- 1. Vehicle Type
 - a. Car
 - b. Bike
- 2. Vehicle Code
- 3. Location

4. Mileage Type
 - a. Kms
 - b. Mile
5. Travel Type – Multi Select
 - a. Local
 - b. Outstation
6. Activation Date
7. Fields:
 - a. Expense Date
 - i. Start Date & End Date Required
 - ii. Mandatory or Optional
 - b. Invoice Number Required
 - i. Yes or No
 - ii. Mandatory or Optional
 - c. Remarks
 - i. Mandatory or Optional

Advance Configuration

1. Advance Type
 - a. Travel Advance
 - i. Maximum travel advance limit
 - ii. Maximum count limit
 - b. Non-Travel Advance
 - i. Maximum non travel advance limit
 - ii. Maximum count limit
2. Fields:
 - a. Estimated Expense
 - i. Mandatory or Optional
 - b. Remarks
 - i. Mandatory or Optional

Finance Masters Configuration:

GL Code Masters Configuration

1. GL Code
2. GL Name
3. Show list of expense categories
4. Option to add separate GL for Mileage
5. Option to add separate GL for Per Diem

6. Option to add separate GL for Advance

HSN Code Masters Configuration

1. HSN Code
2. HSN Name
3. Show list of expense categories
4. Option to add separate HSN for Mileage
